3. Flexible and social learning experience for your staff

Learners **love** FutureLearn! Here's why:

- We equip them with **sought-after skills** for today and the future.
 - It's personalised, flexible, online learning, which they can take **at their own pace**.
 - They can test their knowledge with quizzes and end-of-course assessments and be rewarded with downloadable **digital certificates**.
- 

4. A quality learning-management experience

Uncover and share insights, track learner progress and see the **impact of learning on your business bottom line.**

AI-recommended next courses and curated learning pathways to keep employees motivated and engaged.

Work with FutureLearn to create **bespoke courses** to address your organisation's learning needs.

Trusted by

EST. 1884

"The thing I really love about working with FutureLearn is the social side of the platform. What we're able to do is help our colleagues get up their own internal content at very low cost and then really give learners a social experience using all the functionality of FutureLearn. The emphasis on social learning gives a very different experience to perhaps a classic e-learning package, so that's just been a **fantastic experience for our people.**"
